

Loudon County Facilities Maintenance

Job Posting: Maintenance Electrician

Loudon County Facilities Maintenance is currently seeking a full-time maintenance electrician. This position will be responsible for specific electrical maintenance work such as installation and repair of high and low voltage systems, mechanical components, and PM's. Other general maintenance duties such as plumbing, fabrication, carpentry and mechanical installation/repair may be required on a daily basis as well.

Knowledge of conduit bending, reading blueprints/schematics, single and three phase electrical systems are required. General knowledge of other maintenance fields is desired. Any certifications will be highly regarded in selecting the potential candidate.

Please send all resumes, certifications and other correspondence, via email or USPS to the attention of:
